BigToys®

A PLAYCORE Company

the Big difference

When children arrive at
a BigToys playground they know
they have discovered something *special.*

Unlike typical post and platform play structures, BigToys playgrounds boast distinct architectural details that evoke qualities of custom craftsmanship with covered hardware that provides a clean-finished appearance.

BT1

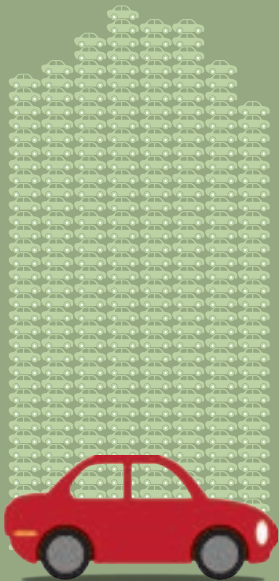

the **Big**green

When it comes to **sustainability** and creating environmentally friendly products, **BigToys** has led the charge since before being green was trendy. Since its inception in 1970, BigToys has utilized recycled materials, a practice we continue to implement today.

70% on average per structure!
RECLAIMED MATERIAL

Decks, enclosures, and roofs are made from 100% post-consumer recycled High Density Polyethylene (HDPE) formed from milk jugs.

***1 million lbs.** of scrap metal diverted from landfills is equal to about 250 cars. (Average car weighs 4,000 lbs.)

Over **1,000,000 lbs.*** of scrap metal has been diverted from landfills since 2005

Not only do we choose earth friendly materials, we also implement green practices that improve the environmental sustainability of our manufacturing process. We are proud that our manufacturing facility in Fort Payne, Alabama is ISO 14001 certified. This certification specifies the requirements of our environmental management system (EMS).

Big choices

BigToys offers the exclusive option to choose whether your structure is made from **conditioned wood** or **recycled metal and plastic**.

Conditioned Wood

Recycled Metal and Plastic

- Natural, organic look and feel
- 6" diameter, finger-jointed uprights
 - Utilizes more of the tree with less waste
- Ultra-smooth finish
 - Sanded surfaces and rounded edges are smooth to the touch
- EPA approved wood preservative
 - Protects against termites & fungal decay
 - Contains no arsenates
- **Forest Stewardship Council** certified wood
 - Fostering sustainable forestry worldwide

- Durable 6" diameter metal uprights
 - Unique powder coat texture keeps surfaces cooler to the touch
- Internal connectors offer a clean design and provide maximum strength and support
- 100% post-consumer recycled plastic decks, roofs, and enclosures
 - Internal reinforcement for maximum strength and to eliminate sagging
- Textured decks meet ADA requirements
 - Superior slip resistance in wet or dry conditions

BT4

For more than 40 years, BigToys has been dedicated to designing commercial playgrounds that **foster** imagination, **preserve** the environment, and **build** strong communities. Our commitment to those values has made BigToys an industry leader in providing developmentally appropriate and engaging play experiences for kids around the world.

The Big difference

Big fun

School Age Big Toys | 5 -12

As you can tell by now, BigToys does things BIGGER! Our structures designed for children ages 5-12 go beyond putting some decks and climbers together. Every structure is evaluated and designed to promote not just physical play, but also social play. BigToys structures include areas for children to build strength and endurance, as well as areas that allow peers to interact socially at their own pace. Turn the page to see a variety of structures that can be customized specifically for you!

When space is a key consideration, a smaller footprint design that packs multi-level platforms, climbers, and social spaces is a great solution. Ideal for pocket parks, schools, or an urban location, the CEDAR design adds a high level of sophistication and architectural aesthetic, attracting multiple generations to the play space.

The BigToys design philosophy combines physical and social interaction during play. How do we do this? By adding multi-rider slides, cozy spots, and of course - PlayShells! Creating a small amphitheater of various levels of climbing can stimulate cognitive route planning, balance, and coordination.

WARNING: Installation over a hard surface such as concrete, asphalt, or packed earth may result in serious injury from falls.

Traditional playground structures are great, but we discovered that deckless systems offer a very different type of experience. First, continuous movement is required to navigate all of the elements, and secondly, the absence of decks provides unrestricted access, prompting kids to create fun and challenging games.

WARNING: Installation over a hard surface such as concrete, asphalt, or packed earth may result in serious injury from falls.

ME05 Rock 'n Cross™

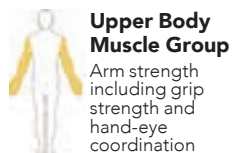

The Rock 'n Cross combines a multi-rider teeter-totter with a dynamic overhead challenge.

- Roller coaster technology of machined aluminum wheel housings with durable polyurethane wheels
- Smooth operation and durability from steel support pipes, primed and coated with Teflon®-based powder coating
- Long-life heavy duty coil springs that never compress more than 50%
- Inground installation

Model Number	ME05
Capacity	2-7
Space Required	25'6" x 17' / 777 cm x 518 cm
Fall Height	7'8" / 234 cm

Nothing else like it!
Incorporating the riding action
of a multi-child seesaw

Upper Body Muscle Group

Arm strength including grip strength and hand-eye coordination

Core Muscle Group

A strong torso is essential for good posture and balance

Cardiovascular Exercise

Overall caloric burn

Overall Stability and Balance

Helps prevent injury and strengthen all muscle groups

ME08 EpiCenter™

BigToys
FAVORITE!

The complex interlinked motion of the EpiCenter promotes cooperation, develops balance and core strength, and is loads of fun!

BT-002 Whirl & Twirl and BT-003 (w/clicking sound)

This freestanding spinner features a tilted design allowing children to spin independently or with assistance from a friend. Meets ASTM standards for ages 2-5 or 5-12 years.

Model Number	ME08
Capacity	4-5
Space Required	25'0" x 25'0" / 762 cm x 762 cm
Fall Height	2'0" / 61 cm

Model Number	BT-002, BT-003 w/clicker
Capacity	1-2
Space Required	15'7" x 15'7"
Fall Height	20" / 610cm

BT46

MBT-410 Synchro Spinner

The Synchro Spinner's superior, sealed bearing system provides a smooth spinning motion that children can't get enough of. Kids quickly learn to control the speed of their spin, by leaning closer or farther away from the center pole of this playground favorite.

EC-625 Moving Tunnels

Combine rocking with climbing or crawling and you'll see what great activities the moving tunnels bring to the playground.

MBT-427 Sport Board

Playground surfers will appreciate the ample size and non-slip surface of the Sport Board. Multiple riders will enjoy challenging each other to see who can stay on the longest.

MBT-430 SynchroPod

The SynchroPod's tilted axis allows children to control their speed and keep the spinning movement going by changing their upper body position on the Pod's seat. Integrated handles and smooth rolling bearings provide a fun and secure ride.

MBT-423 Sport Disk

Simple, yet exciting, the Sport Disk offers a single-user balance challenge for older kids who have outgrown traditional "spring riders." Footing platform features a non-slip surface.

BT-441 Cyclone

Kid-powered rotation provides sensory development and is physically challenging.

This innovative ride is inspired by an upside-down merry-go-round. Available in standard and mini versions.

BT-440 Mini Cyclone

Climbing

BT48

Available in a variety of configurations, our Climbing Wall offers a sturdy climbing activity made from the same durable components as the structural system found on BigToys combination structures. All Climbing Wall configurations are available in conditioned wood or recycled metal. For more Climbing Wall options visit **www.BigToys.com**

BT-268 PlayShell Fort

Designed to serve as a climbing activity or socializing space, our PlayShell Fort is a versatile way to provide intellectual and physical development.

Many other PlayShell configurations can be created to fit a unique space and budget. Ask your Sales Representative.

BT-278 PlayShell Circular Climber

Think of the Circular Climber as an endless traverse event. The round shape offers a multi-level activity that builds balance and hand-eye coordination

BT-254 PlayShell Amphitheater

BigToys' unique PlayShells are connected to offer seating for an outdoor classroom or a challenging linked climbing activity.

NatureROCKS®

A boulder way to play!™

Constructed of Glass Fiber Reinforced Concrete (GFRC), NatureROCKS® Climbing Boulders are artfully designed from real rock outcroppings and hand-painted to look and feel like natural stone.

Overhead Activities for Ages 5-12

BigToys offers a wide range of overhead activities that are as challenging as they are fun. We pride ourselves in designing play events that develop children's upper body strength, coordination and self esteem.

MBT-124 Chinning Bars

This playground favorite promotes upper body strength as children suspend themselves by their arms and propel their body weight using a to-fro motion.

MBT-457 Trackride

BigToys' industrial grade rollers surpass competitors in quality and durability.

MBT-366 Handring Maze

The Handring Maze is a challenging overhead climber, requiring precise timing as children cross from one ring to the next. Promotes dramatic play as children imagine they are circus acrobats or jungle monkeys.

MBT-499 PushPull

The challenge is to pull the opposite rider up while holding on to the bar yourself.

Description	Conditioned Wood	Recycled Metal & Plastic	Capacity	Space Required	Fall Height
Chinning Bars	BT-124	MBT-124	6-8	28'6" x 12'6" / 869 cm x 381 cm	5'3" / 160 cm
Trackride	BT-457	MBT-457	6-8	16'6" x 23'0" / 503 cm x 701 cm	6'10" / 208 cm
Handring Maze	BT-366	MBT-366	10-12	27'0" x 18'0" / 823 cm x 550 cm	5'9" / 175 cm

Overhead

BT54

MBT-566 Overhead Curved Ladder

The sweeping curve of this overhead ladder reflects the architectural curved detail found throughout BigToys designs, which offers upper body development in any play environment.

MBT-776 SkyGame™ 3 Rail

The BigToys SkyGame may be the most challenging and rewarding overhead event on the playground. Users must lift and push the handholds along the rails to move from end to end, much like a hand-over-hand activity.

MBT-516 Overhead Wave Ladder

The Overhead Wave Ladder provides a great gross-motor challenge in addition to upper-body strengthening.

BT-786 SkyGame™ 5 Rail

Our 5 Rail SkyGame offers the same challenging activity as the 3 Rail SkyGame version, but with room for more kids to play together.

Description	Conditioned Wood	Recycled Metal & Plastic	Capacity	Space Required	Fall Height
Overhead Wave Ladder	BT-516	MBT-516	6-8	16'6" x 27'0" / 503 cm x 823 cm	6'8" / 203 cm
Overhead Curved Ladder	BT-566	MBT-566	10-12	30'0" x 21'6" / 914 cm x 655 cm	6'0" / 183 cm
SkyGame 3 Rail	BT-776	MBT-776	4-6	22'0" x 29'6" / 671 cm x 899 cm	6'9" / 206 cm
SkyGame 5 Rail	BT-786	MBT-786	6-8	22'0" x 29'6" / 671 cm x 899 cm	6'9" / 206 cm

MBT-530 PlayPod Maze Curved

MBT-525 PlayPod Maze
1'6", 2'0", & 2'6" deck height

BT56

MBT-545 PlayPod Traverse Curved

The unique repeating curve found on BigToys is used here to give a new twist to the PlayPod Traverse.

MEC-105 Balance Beam

Children build confidence as they learn to use stabilizer muscles while crossing the Balance Beam.

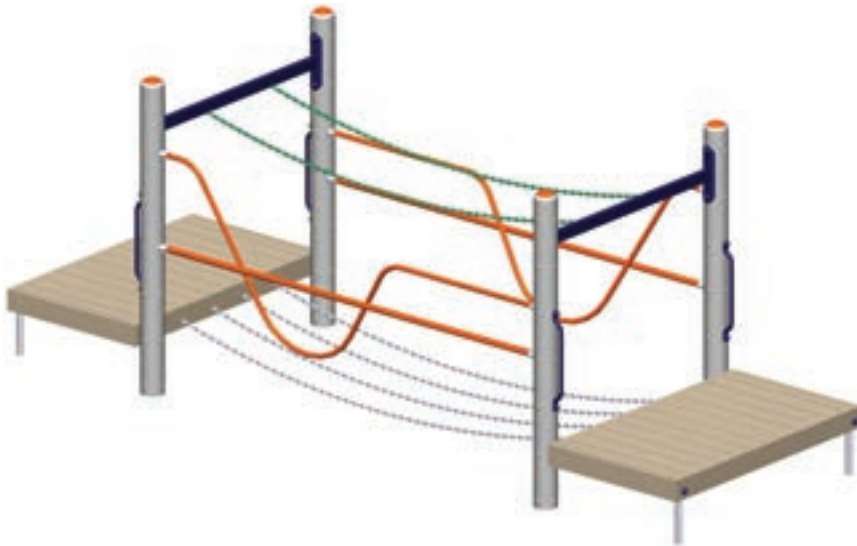

PlayPod Pedestals

PlayPod Pedestals are commonly used as seats in quiet spaces and for linking activities together in a series of steps. PlayPods are available in various colors and heights of 6", 12", 18", and 24".

- 11-009** 6" / 15 cm PlayPod
- 11-010** 12" / 30 cm PlayPod
- 11-011** 18" / 46 cm PlayPod
- 11-012** 24" / 61 cm PlayPod

MBT-600 Chain Walk

Children develop balance by tightrope walking and balancing themselves on one of three chains.

Description	Conditioned Wood	Recycled Metal & Plastic	Capacity	Space Required	Fall Height

MBT-100 Invent-a-Game
Inspire hours of cooperative play with six unique activities that allow kids to invent their own games that get them moving and having fun on the playground!

Social Play

BT60

Park Timbers
Black only. Available in both 8" and 12" heights. Each timber includes 1 stake.

Nature Curb
Bring the look of nature to your playground. The log themed curb is a perfect addition. Available in 12" Height. Brown only.

Park Timber

Park Timber Adapter

Allows a smooth transition between different fall height requirement zones. Available in LEFT and RIGHT versions.

Park Timber Connector

Joins two regular timbers to create lengths to fit within any space. Available in 8" and 12" heights

PTAC Accessible Park Timber
Connects to Park Timbers to allow for easy access to the playground. Works with both 8" and 12" Park Timbers.

Metal Footer

Metal footers can be added to any wood structure to increase the longevity of the structure. The discrete design will not detract from the organic look of the structure.

Model	Description
Z99111	21" Tall Metal Footer
Z99112	33" Tall Metal Footer
Z99113	45" Tall Metal Footer

Geo Composite Drainage System

Drainage is an important part of playground design to prevent puddles and erosion. Our drainage systems were developed specifically to prevent playground drainage issues.

Model Description

161293	75' roll
161294	150' roll

Geotextile Fabric

Geotextile Fabric is a water permeable fabric that creates a barrier between loose-fill surfacing and the earth below. The specially designed fabric helps keep surfacing in place and prevents clogging of drainage systems.

Model Description
